

**ACTION
PACK!**

Dear member

Congratulations on being one of many HPs making the decision that now is the time to act to ensure you get a fair deal.

We know that the work you do is vitally important to the health of Queenslanders and it's time the Government realised the same.

This action gives you all the resources, tips and contacts to help you help members in your work area work on activities to make the Government listen.

It is designed to have as many worksites and as many union members as possible taking part and gives you information on how to respond regarding your legal right under the Queensland Industrial Relations Act to take action.

The more HPs we have involved, the more power union members have not only stop attacks on your wages and conditions but to get the Government to take HPs issues and improvements you are seeking seriously.

I hope you find this material a valuable resource but remember assistance is available through your local organisers (contact details inside this kit) or by emailing **hp@qpsu.org.au** or calling the QPSU Membership Services Centre on 1800 177 244 or the LHMU's Member-assist on 1800 065 885.

The HP Stronger Together campaign is incredibly important to the future of Queensland Health – to ensure that you all have decent wages and conditions and the resources to help the Queensland community.

We know that other members across the union are with you they are already signing and distributing postcards and sending their support – congratulations again on being part of the campaign.

Yours sincerely

Kate Flanders
QPSU Assistant General Secretary

Gary Bullock
LHMU State Secretary
